(PNDP). She voiced the same confidence in Ahmadou Sardaouna, the Managing Director of the Cameroon Real Estate Corporation (SIC), elite of the North Region, son of Garoua and former MINH DU Secretary General, to whom she handed the keys of the low-cost housing units. This was intended for marketing in accordance with the management contract signed between the Ministry of Housing and Urban Development (MINH DU) and SIC. Still in Garoua (Tingueling neighborhood), the Minister visited the construction site of affordable housing made of ground and cement materials, as part of a project resulting from a partnership between MINH DU and Cimencam. This pilot site with an area of 10 ha, is made available to SIC, for the construction of 200 housing units. In turn, Cimencam pledges to finance the project and get repaid from its yields.

In Garoua, the two above mentioned stages were preceded by a visit to construction sites, including, that of the Roumde Adja waste water treatment plant. and equally those of the rehabilitation of access roads to the 2022 African Cup of Nations infrastructures mainly, the BEAC-Benoue Hotel junction - Cenajes and Cenajes - Roumde Stadium entrance – Voie triumpal - Place des Fêtes stretches. Same like his counterpart in Garoua, the Maroua Mayor, Sali Babani, thanked the President of the Republic for the Housing donation and for all he does for the region, "First daughter of the New Deal". The handing over of anti-COVID 19 equipment to nine associations concluded this other field visit of the Minister of Housing and Urban Development in the headquarters of the Far-north region.
